

Overview of fees for pastus⁺ system participants**without right to use the sign as from 1 January 2026**

Companies that have concluded a system contract with AMA-Marketing for participation in the pastus⁺ system must pay annual system fees to cover the resulting administrative expenses of AMA-Marketing.

The annual system fee refers to the respective calendar year and depends on the operational functions of the company. The highest amount of an applicable operational function according to the table is charged and includes all other operational functions.

Operational function	Net amount
Production of compound feed and feed materials incl. private labelling	EUR 335.00
Trade with animal feed as well as storage and transshipment of animal feed	EUR 267.00
Transport of animal feed	EUR 201.00

If the contract is concluded, terminated or cancelled during the year, the licence fee will only be charged for those months of the year in which a valid system agreement relationship existed.

Example: *valid contract as of 15 July* ⇒ *System fee for July to December is credited*
 termination as per 3 January ⇒ *System fee for January is credited*

Example for the calculation of the annual pastus⁺ system fee:

Operational functions	Net amount
Production of feed materials	EUR 335.00
Production of compound feed	-
Trade in animal feed	-
Annual system fee	EUR 335.00
